

Leica iCON telematics

Remote access for your site and machinery

icon
intelligent construction

Leica iCON telematics. Save time, speed up work, push your productivity.

iCON telematics is a web-based suite of tools that allow you to increase the efficiency of your machine control operations on site and manage your machinery fleet remotely. iCON telematics services include fast and easy data transfer from office to site and to construction machines, remote support for the operators and basic fleet management functionality. iCON telematics seamlessly integrates with your workflow on construction projects and the Leica iCON solutions, simplifying work processes and enabling significant time and cost savings.

Leica iCON. Understanding construction.

- Easy communication from the office to the fleet on site
- Project management tool to synchronise data from the office with the site
- Multiple functionality via one user interface: remote support, remote file transfer, fleet management
- Create and manage multiple projects with different machines
- Increase productivity, simplify design data handling and monitor & manage your fleet operations
